

Dear Algebra I Students,

I look forward to seeing all of you in August and time is flying!

As we all work to enjoy our summers, it is helpful to stay in touch with things we have learned previously to make the start of the year a bit smoother. No doubt you all love math and are eager to get started. (Ha)

In order to get your brain back and working BEFORE you join me in class, I have created a short summer assignment. Make sure you have a piece of paper to write down your work if you need to for some areas. It will be to your benefit. If you find the work hard, look up videos on YouTube/Khan Academy to refresh your memory on how to complete the concept or review an old textbook you may have from last year. Some of you will find it easy. Math doesn't have to be hard, it is just important.

The more you practice before school starts, the easier the class will be. With that said, it is a requirement to complete. But, you must be the one to complete it. No calculators (seriously) and it must be YOUR own work. I recommend you review the work that is to be done and decide when it is best for you to start.

You will be assessed on your knowledge as the school year begins.

The summer assignment is due at 8am on August 22nd.

I look forward to seeing you soon!

Mrs. Wiedwald

JOINING THE DELTA SUMMER MATH CLASS for Wiedwald - Algebra I

If you DO NOT already have a Delta Math account, follow these steps:

1. Click on this link <https://www.deltamath.com/students?code=ZQ4V-3XW2>
2. Click "Register with Email". Type in your BMHS email address.
3. Click "Check Email".
4. Follow any additional instructions provided by Delta Math to verify your email address and create your password. Make sure to use your LEGAL first and last name when entering that information.
5. Click "Create Account". Then, click "Okay".

Note: Make sure to keep your password in a safe place as you will need it every time you login to complete work on Delta Math this summer and throughout the school year.

4. Now that your account is created, login with your email and password you created to work on your summer assignment. You may work on your summer assignment work in any order.
-

If you DO already have a Delta Math account from a previous school, follow these steps:

1. Click on this link <https://www.deltamath.com/students?code=ZQ4V-3XW2>
2. If you have a previous account under a different email address, you will need to update it to be your BMHS email address.
 - Login in to your Delta Math account
 - Go to Tools
 - Select Login/School Information
 - Go to Personal/Login Information
 - Click edit
 - Update your email address
 - Save
4. Now that your account is updated, follow any instructions provided by Delta Math to verify your email address (if applicable).
5. Once you have finished, login with your email and password you created to work on your summer assignment.

Note: Make sure to keep in a safe place as you will need them every time you go to login to complete work on Delta Math this summer and throughout the school year.

If you already have a Delta Math account with your BMHS email, follow these steps:

1. Click on this link <https://www.deltamath.com/students?code=ZQ4V-3XW2>
2. If your BMHS email is set up as a Google ID, Login with Google. You may view and begin your summer assignment.
3. If you use your BMHS email and a password to login directly, just login and begin your summer assignment.
