

Honors Precalculus Summer Assignments

Honors Precalculus is a rigorous and fast-paced course. To prepare for the rigor of this course, you will need to be familiar with some topics from Algebra II. I have created a few Deltamath assignments that covers some of the prerequisite skills needed for Precalculus. **There will be a test on the second week of school** on those topics. If you have questions on the assignments, please come see me during the first week of school.

Please follow these instructions to create a Deltamath student account:

1. Go to Deltamath.com
2. Click on "For Students"
3. Create an account, preferably with your Bishop McGuinness email address.
4. Enter the class code **FK74-KM4A**

Once you have created your account, you should be able to access the assignments. Deltamath offers examples and videos to help you. If you have issues creating an account, you can email me at sdiaz@bmhs.us

Thank you,

Mrs. Diaz
